WP6 Implementation of pilot/demonstration projects

Introduction

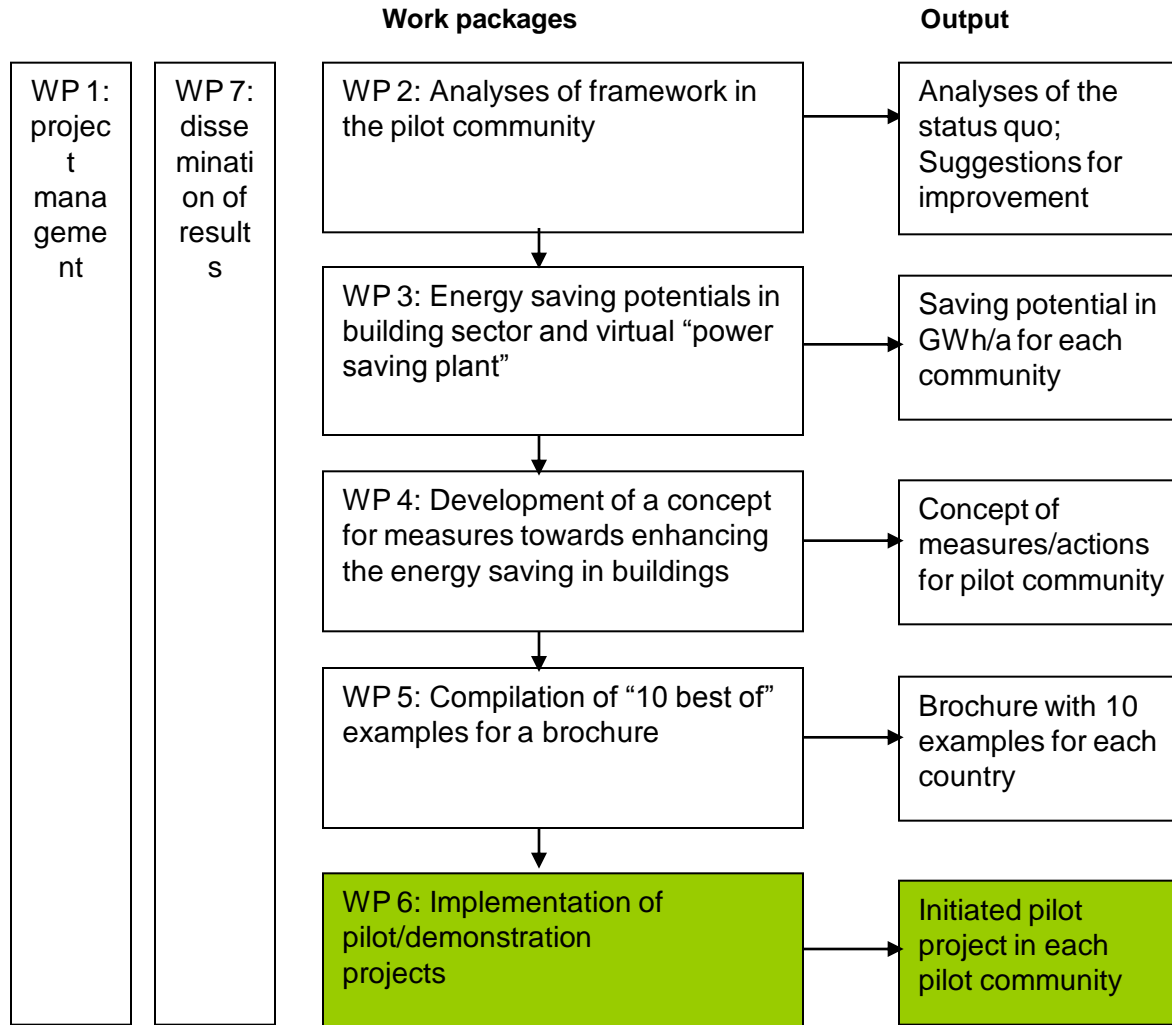

WP leader BCEI ZRMK

Marjana Šijanec Zavrl

Building and Civil Engineering Institute ZRMK

Meeting in Sala, February 22-23, 2007

WP6 Implementation of pilot/demonstration projects

WP6 Tasks – national workshops

In national workshops in each community, the project partner **selects**, together with the stakeholders, **one measure, instrument or action contained in the concept** (worked out in work package 4), which is considered as most prior and should be implemented first.

Considering the experience from the “best of” examples from other communities, the **criteria for the selection of the pilot project** will be:

- innovative approach: the measure should be **new** in the community
- the measure should be **clearly perceived** by the citizens and media
- the measure should **overcome existing barriers** for energy efficiency measures at buildings in the community
- the measure should be **applicable for many other** communities in the country and in the EU (multiplication)

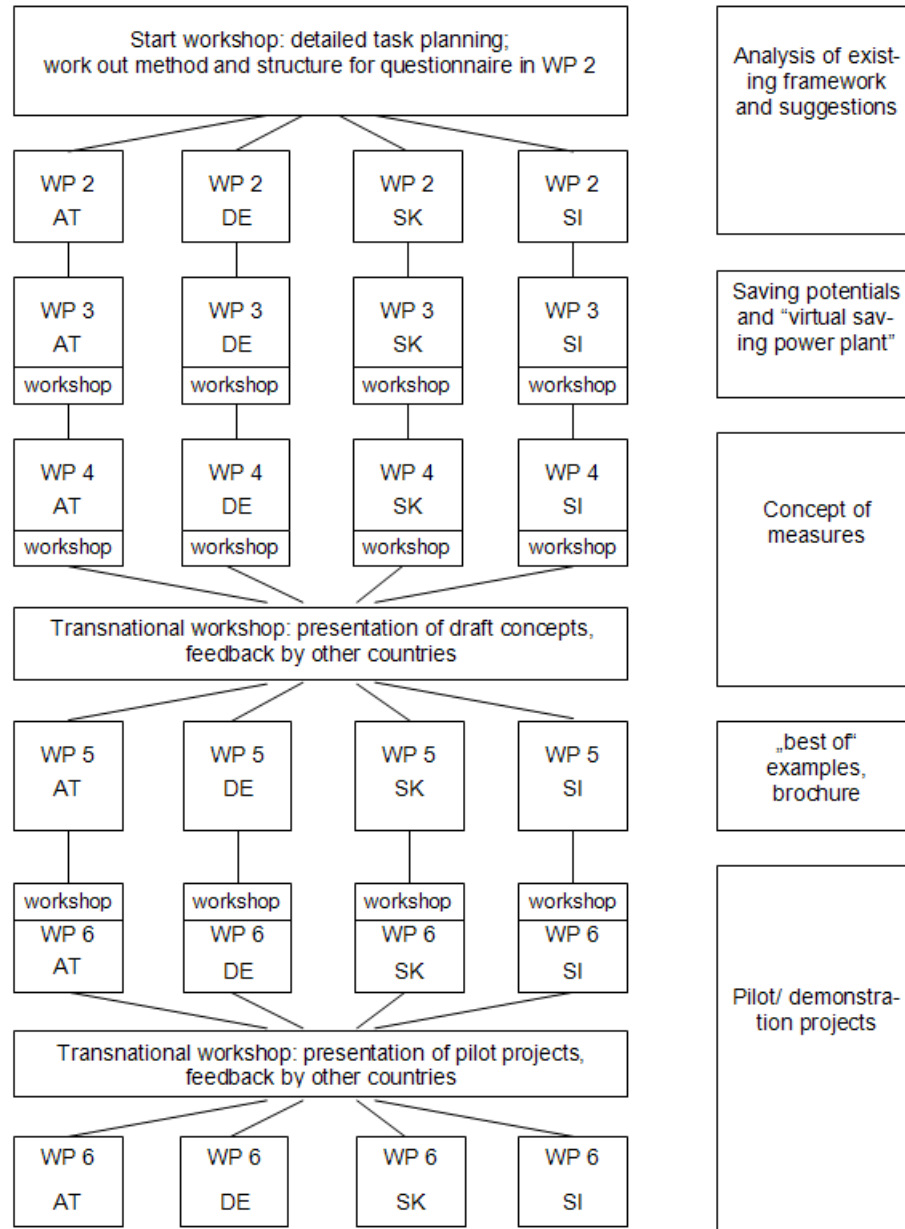

WP6 Tasks – joint transnational workshop & adopted pilot project

In a joint transnational workshop, all country **partners present their planned pilot projects to the other communities.**

Every community will **receive feedback** and will thus profit from the experience of the other countries in similar actions.

The **feedback will be adopted** in the pilot projects, and the results of each **pilot project** will be **documented in a report**, which will be published at the project homepage.

Project flow diagram

WP6 - Outcome

- Organising national workshops with the stakeholders to determine and draft the pilot project in the pilot communities
- Organising the transnational workshop
- Adoption of the pilot projects regarding the feedback from the workshop
- Implementation of the pilot projects

WP6 – Timetable & Deliverables

Project phase / Duration of the project (in months)	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30

Deliverable(s) of WP6

- D20 4 national workshops to evaluate final concept for measures and selection of pilot project
 - D23 draft plan for the pilot projects 10 pages per country
 - D24 transnational workshop in Jesenice 23-24 October 2007
 - D25 report on transnational workshop 15 pages - 3 introduction ZRMK and 3 p from each partner about pilot project
 - D26 final plan for the implementation of pilot projects 20 pages per country
 - D28 4 pilot pilot project implemented just report
- Move project meeting from 7 2007 to 10 2007 and from 10 2007 to 3 2007**
- Jesnice meeting 23-24 October 2007**

Performance indicators

Work package 6	
Performance indicator	Quantification
Implementation of a pilot/demonstration project	<p><u>Workshop national: with at least 20 stakeholders</u> of the community, at least one representative from the local administration entities, regional or national administration entities, building (refurbishing) companies, architects, financing institutes, building owners.</p> <p><u>Workshop transnational: participation of all country lead partners.</u> Detailed presentation of each planned pilot project</p> <p>The pilot project must fulfil the following criteria:</p> <ul style="list-style-type: none"> Its effect must <u>address a significant part</u> of the community buildings More than <u>50% of the citizens will be informed</u> by the pilot measure/action and the results
